SPACE

In the heart of Brixton, Tripod provides space, events and connections for creative, tech and social businesses to positively impact the local community.

Tripod is a beautiful, light-filled workspace in Lambeth Town Hall, designed by award-winning local creatives [Eley Kishimoto](#) and [Dolman Bowles](#).

We have been accredited with GLA's pilot [Workspace Accreditation Scheme](#) - which shines a light on affordable workspaces that offer good community impact and business support to tenants and local communities, and operate a responsible business practice environment.

We offer a range of affordable spaces - including individual desks, pods and larger studios - at 80% of market rate. Tripod workspaces welcome freelancers, start-ups and growing SMEs.

The space is managed by Meanwhile Space.
